

# SILACOUNT 200 & BALE WRAP COMPUTER

## Monitor & Control

### **SilaCount 200**

The RDS Silacount 200 is a simple, user friendly instrument to monitor the amount of film applied to a bale and the total number of bales wrapped.

Features:

- Sealed to IP67
- 10 - 30V DC power supply
- Programmable target bale revolutions
- Internal & optional external audible alarm
- Bale count register

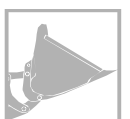

### **Bale Wrap Computer**

This instrument is a more comprehensive version of the Silacount 200. It can display useful information such as wrapper RPM, work rate and numerous bale counts.

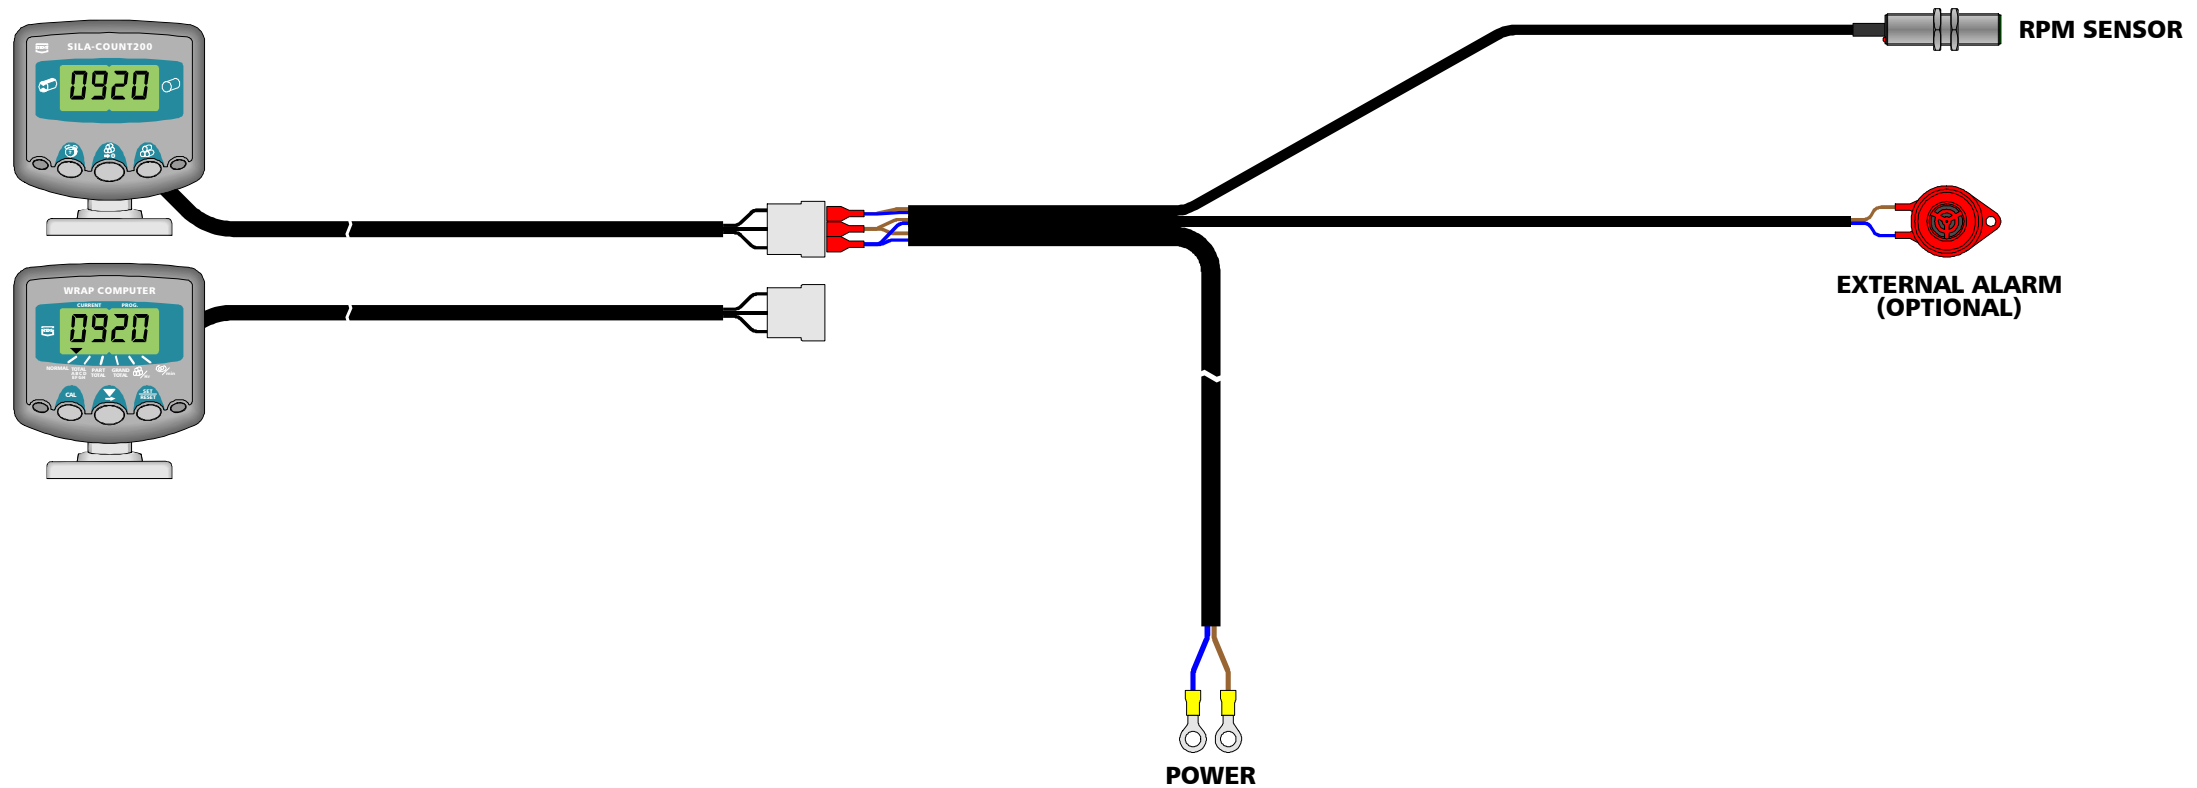

The instrument can also operate an output to release the film or stop the wrapper.

Features:

- Sealed to IP67
- 10 - 30V DC power supply
- Programmable target bale revolutions
- Internal & optional external audible alarm
- 8 resettable bale counts
- Bale per hour
- Optional film release or auto stop output
- Programmable overspeed alarm
